Four in a Row

You need:

- 2 players
- 12 each of 2 colors of markers (unifix cubes)
- 2 small rings or washers

Take turns choosing 2 numbers from this square and "ringing" them with your disks. Find their sum and place your marker on that number in the large square below.

| 5 | 6 | 7 | |
|---|----|----|--|
| 8 | 9 | 10 | |
| | 12 | 13 | |

Or you can choose a number in this large square where you want to put your marker. Then figure out which TWO numbers in the small square above add together to make the number where you want to put your marker. Put the "rings" around the two numbers in the small square above and then you can put your marker in this large

| | solution above and then you can put your marker in this large square. | | | | |
|----|---|----|----|----|--|
| 16 | 19 | 22 | 14 | 17 | |
| 24 | | 15 | 20 | 21 | |
| 15 | 23 | 18 | 12 | 19 | |
| 25 | 20 | 21 | 17 | 22 | |
| 13 | 14 | 23 | 16 | 18 | |

The first player to get 4 markers in a row vertically, horizontally, or diagonally is the winner!
